ciated Press News.

Republicans are trying to figure out
how that big hole occurred in the Maine
election ticket.

No new cases and no deaths in
twenty-four hours. This is the best
news we could wish.

Secretary Foster is satisfied with Dr.
Jennings' course in Quarantine matters.
So is the general public.

There is no doubt that a great victory
has been won in Maine. The only doubt
is as to which party won it.

The Albany fire would have had its
compensations if it had come in time to
destroy Pack's report along with the more
valuable ones that have perished.

The fact that the cholera is disappear-
ing among those infected with it is an as-
surance that it is not going to appear
among those who have not been exposed to it.

Prize fights are a survival of barbarism
and should be abolished as soon as rea-
sonable public opinion is gratified by having
CONNETT give MITCHELL the best licking
he ever gave any one.

A fifteen-year-old schoolgirl, having
quarrelled with her stepmother, tried to
throw herself over Niagara Falls. The
old-fashioned slipper method should be
used to convince her of the error of her
ways.

After counting investigation of his pecu-
liar figures Mayor Commissioner Pack
asks for more time when his challenge is
accepted. It is apparent that all this
legal quibbling means he is afraid to face
the issue.

THE EVENING WORLD'S announcement
that Hill would be found in his place in
the Democratic column as soon as there
was any occasion for it is now officially
confirmed. Brooklyn will listen to him
next Monday.

The differences between the manage-
ment of the Reading Railroad and its em-
ployees are slowly differences which
might be settled by arbitration now, but,
of course, no such thing as arbitration
will be considered until after the troubles
have got beyond the point where arbitra-
tion might avail.

Chicago objects to a nude Diana
and Chicago is perfectly right. Diana
was a goddess who had objections to be-
ing stared at under any circumstances
and who was always accepted as the
representative of modesty. If New York
is to have a nude Diana let us have her
properly apparelled.

Mr. JOHN CARROLL, of Orange, has ren-
dered a public service at great inconve-
nience to himself, by refusing to give up
his ticket to a conductor who failed to
furnish a seat. The great Pennsylvania
Railroad is not above the measures of
selling tickets and refusing the purchaser
the privilege of a seat.

The condition of Mrs. HARRISON's
health is such as to occasion some alarm.
The President has been compelled to
again change his plans and to hasten to
rejoin his wife at Loom Lake. It is to be
hoped that the fears of the friends
of the President will prove to be

groundless and that an improvement in
Mrs. Harrison's condition will soon be
announced. The people will meanwhile
look with anxiety for bulletins from Loom
Lake and their sympathies will go out to
the President in his trouble.

GOOD NEWS.

No case of cholera has yet appeared in
the city. The health of the city is un-
usually good. There have been no new
cases of the disease among the quaran-
tined ships, and no more deaths within
twenty-four hours up to 10 o'clock last
night.

This is the gratifying report from the
Health Department this morning. It
gives good encouragement that the pesti-
lence has been strangled in the bay and
that the fear of its reaching the city may
be regarded as over.

Still, the arriving steamers must be
closely watched, and it must not be for-
gotten that another vessel from Hamburg
with emigrants on board is due.

If the passengers on the Cepheus were
safely landed at their comfortable quar-
ters at Fire Island, and proper provision
made for the removal of all other healthy
people from the danger of infection, the
situation would be altogether satisfactory.

THE VOICE OF HUMANITY.

The conduct of those people on Long
Island who resisted the establishment of
a health station on Fire Island is indef-
ensible from every point of view. Their
leading motives are cowardice, selfishness
and inhumanity, and their methods are
those of the mob thinly protected by the
too frequent and facile injunction.

If any real danger was threatened to
their health there would be some excuse
for their claims and terror, but there is not
even a pretense that the landing of the
Normannia's passengers would cause the
slightest injury of that kind.

The sole ground and basis for an upris-
ing which has belied the traditional Amer-
ican reputation for bravery is the sordid
and selfish fear of the loss of a certain
Summer trade.

This fear is almost wholly unfounded,
but even if it were not it would not con-
stitute any valid reason for the revolt. It
would be much cheaper for the State of
New York to compensate any one whose
business suffers from its action than to
permit any further continuance of the
cruelty which has been dealt out to the
unoffending and unresisting passengers
of the Normannia.

OVER THE \$15,000 LINE.

The Sick Babies' Fund jumps across
the \$15,000 line to-day. It now amounts
to \$15,022.91. It closes this year with a
triumph of which all its friends may be
proud.

The people who have given this
magnificent sum for the relief of the suf-
fering children of the poor have done a
kindness whose value can be measured
only by the tears and griefs it has re-
placed with smiles and joys in so many
thousands of trembling hearts.

The good that has gone out from it,
and it is boundless, will return in some
cheerful shape to the builders of the
Fund, every one of whom should feel
healthier and happier for his or her con-
nection with this beautiful charity.

WOMAN'S GOOD SENSE.

Commend us to the women for good
common sense, after all. The members
of the New York State Board of Man-
agement of the World's Fair have put
Quay and his Sunday-closing associates
to shame by adopting a resolution offered
by Mrs. FREDERICK P. BELLAMY request-
ing the Colombian Exposition be
opened on Sundays "for the benefit of
all classes."

These sensible women know that a cer-
tain objectionable party finds something
still for ill hands to do, and they feel
satisfied that the thousands of strangers
who will be loitering about the streets of
Chicago on Sundays during the Exposition
will be likely to seek less desirable
amusements if they are shut out from the
World's Fair buildings. They know,
too, that all the saloon and dive keepers
in the fatulent city are in favor of closing
the Fair on Sunday. And these are the
very people whose interests they do not
care to promote.

BOTH PARTIES IN LINE.

Maine has slumped. Like Vermont, it
has not given its normal Republican ma-
jority. But the State election is not the
National election, and, as the electoral
vote of both States are assured to the
Republican candidates, as Mr. Toole
wrote, "it is of no consequence."

Meanwhile both the great political parties
are happy. On the Republican side
PLATT is pleased, QUAY is quieted, DURELL
is delighted and MILLER is manipu-
lated. On the Democratic side Tammany
has come to time, SHERMAN is shining
light of the campaign, MITCHELL is mod-
ified and HILL is harmonious.

Now let both parties muster their forces
and make up their minds to a good,
square fight against a united opposition
in November. THE EVENING WORLD told
them they would have to come to this
notwithstanding their castle building in
the air, and they now find out that the
information was correct. Republican re-
volt? Democratic disunion? Humbug!

STOP IT ALTOGETHER.

It is gratifying to find that THE EVEN-
ING WORLD's criticism of the methods
adopted in the Chinese Sunday-schools
of the objectionable marriages be-
tween Chinese and young American
women to which the system of teaching
leads are likely to induce a change in the
school connected with the Church of the
Strangers, of which Dr. DEEMS is pastor.

Last June the Superintendent of the
school determined to remove one offen-
sive feature pointed out by THE EVENING
WORLD, namely, the close contact of the
teacher and pupil, and to require them to
sit on opposite sides of a table. The
Chinese manly protested against this
innovation and went out of the school. A
vacation was taken until September, and
now the school will not be reopened until
a committee appointed for the purpose is
ready to report whether a change in the
method of teaching is desirable.

Nothing short of the abandonment of
the plan of having young American
women for teachers will satisfy public
sentiment and remove the indecency of
the system. The fact that the Chinese
are angered and aggrieved even at being
separated from their teachers by a table
proves how gross the indecency is. No
sophistry can make any person of com-
mon sense believe that the cause of reli-
gion derives any benefit from the exist-
ence of these schools, and the sinner
young women are relieved of the offen-
sive and degrading work in them the
more creditable it will be to the churches
to which they are attached.

PUBLIC DOCUMENTS.

The application for a mandamus to
compel the secretive Pack to disclose the
source of the information on which his
report concerning labor statistics is based
was heard before Judge Frawley in Spe-
cial Term at Kingston yesterday. After
argument the case was set down for the
last Tuesday in September at the Special
Term in Albany, which will be pre-
sided over by the same Judge.

Although Pack's counsel succeeded in
getting the delay for which they were
fighting, they did not find much conso-
lation in the remarks of the Judge. "No
papers in a public office are private," said
Judge Frawley. "A public officer has
no right to have private papers in his
office, but I think a short delay will not
hurt the case and enable the defense to
say they were fairly treated."

These remarks practically dispose of
Pack's claim that he has a right to con-
ceal the names of the firms on whose re-
turns of their business his official report
is alleged to be based. But the counsel
who moved for the mandamus were re-
luctant in not applying for an order forbid-
ding the destruction of the secret returns
and ordering their delivery to the Court
pending the decision in the case.

THE REIDAY OF HYPNOTISM.

A Tacoma widow says that a man who
wholed her out of \$1,022, and whose
arrest she caused after she discovered
that he was sloshing his affections around
on other females, had hypnotized her.
A Harlan undertaker is credited with
having hypnotized another man's wife
with such success that she took some of
her husband's savings and ran away
with the gay and festive hy-
pnotizer. A writer on pugilism
whose whole arm movement has
an ex cathedra swing to it when it pens
anything about the ring declares that
JOHN L. SULLIVAN was wont to preface
his bull-like rushes with a little hypnotic
business that sent a chill to the victim's
narrow before John's terrible right
landed at the butt of his ear.

And so it goes. Hypnotism seems to
hang everywhere in air ripe for pulling
down and putting to use in any direction.
Indeed, this seems to be hypnotism's hey-
day. CHARCOT and the other proponents
of the doctrine should get upon one leg
and emit a few peans of joy, this is their
time to shine.

It looks as if hypnotism was a good
thing, or a bad thing, if it happens to be
headed in the direction of wickedness.
Why not try it in politics? Instead of
silver-tongued orators and Chinese lan-
terns and flaring torches and oilcloth
saddles, would it not be advisable to hire a
lot of hypnotists and station them at the
polls on election day? If voters can be
put to sleep and made to do the hypo-
tizer's bidding in the matter of voting,
then several large stains may be washed
from the National "scutcheon and hypo-
notism can take the place of many a crisp
new \$2 bill in helping to shape the des-
tiny of the nation.

COLUMBUS DAY FUNDS SHORT.

Committee of One Hundred Has
\$68,000 and Needs \$100,000.

The committee of 100 having in charge the
Columbian Celebration in this city next
month met to-day in the Governor's Room in
the city hall.

Present were F. W. J. Hunt, Samuel D.
Babcock, Chauncey M. Depew, C. A. Har-
tford, Abraham Mead, Michael Crane, Hugh
L. Gardner, David S. Brown, Charles Barnhart,
Walter Stanton, Cornelius Vanderbilt, Jr.,
Nicholas Kane, Giovanni P. Morriss, Isidore
Strauss and Stephen Waite.

It was reported that the committee had
received \$68,000 appropriated by the Legisla-
ture, \$10,000 from the State World Fair
commission and \$4,000 from private sub-
scriptions, making a total of \$82,000.

The committee was informed that \$100,000
was needed. Several plans for raising the
additional sum were discussed and finally the
matter was referred to the Finance com-
mittee which will meet on Thursday at the
office of Samuel D. Babcock. They will report
a plan to the full committee on Monday.

STREET-CAR LINE EXTENSION.

Application to Run a Cross-Town
Line to West Street Ferries.

The Widener-Ellis syndicate made appli-
cation to the board of Aldermen this after-
noon for privilege to extend the Metropolitan
cross-town railway from the corner of
Spring street and South First Avenue to
Canter street and West Broadway, thence
along Broome, Sullivan and West streets,
to connect with the Houston, West street and
Pavonia Ferry Railroad on West street, and
also to connect with the Desbrosses street
line.

The application was referred to the com-
mittee on Railroads.

Russia Withdraws Her Troops from the Pamir Country.

(BY ASSOCIATED PRESS.)

St. Petersburg, Sept. 12.—The Russians have
evacuated the Pamirs. A large force has been
ordered to be stationed permanently at
Murghab.

The presence of the Russians in the Pamir
country had caused much uneasiness in
England, India and Afghanistan, as it was
thought, particularly by the Conservative
party in England, that Russia, taking advan-
tage of the success of the Liberal party, was
attempting to seize territory to which she
had no claim.

Albany's Fire Breaks Out Again.

ALBANY, Sept. 12.—Fire broke out this
morning in the Hotel Columbia, which was
partly burned in yesterday's big fire, and for
over an hour the flames burned fiercely, con-
suming a great deal of the building. Several fire-
men and narrow escapes from falling walls.
The fire is thought to have been of incendiary
character.

STATE HEALTH BOARD WILL AGIT

OVER \$15,000 TO-DAY!

The Noisome Smells About
Newtown Creek to Be Abated.

A Result of the Governor's Meeting
with Mayor Boody.

Mayor Boody was in consultation with Gov.
Flower and the State Board of Health this
morning in regard to the appeals and actions
against the numerous factories along New-
town Creek.

The board, which is for the most part for
extracting salt, soap, fertilizers, etc., and
the odor arising from them is almost un-
bearable to the people who live in that vicinity.

Last week Mayor Boody wrote Gov. Flower,
asking his aid in getting the State Board to
act, but the governor said Mayor Boody had
power to act himself, while the Mayor says
he has not.

The result was the meeting this morning,
and as was the present cholera, excitement
around the State Board will not.

OBJECTS TO A SECRET VISIT.

Politics Permitting, Emperor William
Will See the World's Fair.

(BY ASSOCIATED PRESS.)
London, Sept. 12.—The Standard's corre-
spondent at Berlin says: "Emperor William,
in his interview with Sir Slesway, gave that
gentleman the impression that a visit by him
to the Chicago Fair would depend upon the
state of European and home politics."

"When some months ago the Emperor
hinted to his private circle his desire to visit
Chicago, it was suggested that a secret visit
be made, and some person sent him on a
tour to the North Cape; but the suggestion
found no favor."

"Many people here think there is less ob-
jection to be made to the Emperor going to
the Chicago Fair than to his visit to the
Paris Exhibition in 1889."

The Run on the Birkbeck Bank Still Continues.

(BY ASSOCIATED PRESS.)
London, Sept. 12.—The Birkbeck Bank yester-
day sold £500,000 in consols at 100, and the
transaction depressed all Government
securities. As early as 5 o'clock this morning
people were waiting in the street for the bank
to open.

No force was the struggle to gain advan-
tageous positions that the police were obliged
to intervene to stop the fighting and regulate
the excited depositors.

Although there is no question that the
bank is perfectly solvent and able to meet
any claim made upon it, it will be forced to
realize upon its securities if the run does not
abate.

The Charges of Bribery Against Aus- trian Customs Officials.

(BY ASSOCIATED PRESS.)
Vienna, Sept. 12.—The indictment of the
Bukovina customs officials and merchants
concerned in the bribery scandal charges
that 5,000,000 kilos of Hungarian maize
entered Austria without paying duty, cross-
ing the frontier in wagons at night.

It also charges that the lowest official
received a sovereign for each cartload, and that
the higher officers were paid according to their
rank. The Inspector of Finance, Hofrat
Tractinsky, and all his relatives and friends
advised and other persons were charged with
positions or promotions in the customs office
had to pay him £100. The Hofrat lived in
extravagance and kept four mistresses.

A Sudden Rise in the Nile Causing Alarm in Cairo.

(BY ASSOCIATED PRESS.)
London, Sept. 12.—A despatch to the News
from Cairo says that a serious rise has begun
in the Nile; that all the European and native
engineers employed in the irrigation depart-
ment have been recalled from their various
posts, and the khedive has telegraphed to
provincial authorities to prepare for the
emergency.

REAR-ADMIRAL HOWELL DEAD.

One of the Civil War Veterans Dies
at Folkestone, England.

(BY ASSOCIATED PRESS.)
London, Sept. 12.—Rear Admiral John
Cunningham Howell, United States Navy, died
at Folkestone yesterday.

Rear Admiral Howell has been on the re-
tired list of the navy for ten years. He took
part in the Mexican and Civil wars. He went
to sea in 1840 and served in the Pacific and
afterwards served in the ship-of-war Saratoga.
In 1867, after Women's dismemberment, he
commanded the Monitor. He held other com-
missions during the war and served with
distinction.

In 1878 he was again command of the
Saratoga and served in the Pacific. His daughter,
Miss John L. Worden, the former commander
of the Monitor, his flagship was the ill-fated
cruiser Trenton, afterwards destroyed in the
hurricane at Samoa and at that time the
newest vessel in the navy. He was retired in
1881 after fifty years' service in the navy.
Admiral Howell lived quietly in a mansion on
Eighteenth street, New York, and his daughter
married an Englishman and her father made
frequent visits to her English home. He
died from New York for England only a
few months ago.

A NEW PRINCESS IN GERMANY.

Emperor William's First Daughter
Born This Morning.

BERLIN, Sept. 12.—The Empress gave birth
to a daughter at 3:30 o'clock this morning.
Her accompaniment took place at the palace
at Potsdam. This daughter is the seventh
child born to the Emperor and Empress. The
other children are:

Prince Friedrich Wilhelm Victor August
Ernst, born May 6, 1882; Prince Wilhelm
Eitel Friedrich Christian Karl, born July
7, 1883; Adalbert Ferdinand
Beregar Victor, born July 14, 1884;
Prince August Wilhelm Heinrich Gunter
Victor, born Jan. 29, 1887; Prince Oscar
Karl Adolph Adolf, born July 22, 1888, and
Prince Joachim Franz Humbert, born Dec. 17,
1890.

The child accouché this morning is the
first daughter born to the Emperor.

(BY ASSOCIATED PRESS.)
SHELLEYVILLE, Ind., Sept. 12.—A. M. Ziegler,

Denies a Report of His Death.

(BY ASSOCIATED PRESS.)
CINCINNATI, Sept. 12.—Shortly before mid-
night Ed McGeheer Corbin, Inspector of
Buildings for the United States Treasury de-
partment, called at the Associated Press
office in this city in perfect and sound health
and full of vigor, to contradict a despatch
sent from New York last Saturday
night announcing his death.

To-day the Sick Babies' Fund amounts to
\$15,022.91. The end comes Thursday, by
which time several hundred dollars should be
added. Last year the fund was only \$8,000.
Its popularity has almost doubled in a year,
and so has its capacity for doing good.

The latest report by the chief of corps of
Sick Babies' Fund physicians, which carries
their work up to last Saturday night, shows
that 170,196 families have been visited in
18,864 houses and that 14,944 sick children
have been reached and cared for by the Fund.
Caring for the children has constituted not
merely in ascertaining their condition of
health and prescribing required remedies,
but in furnishing medicines free when the
family was too poor to buy them, and in giv-
ing clothing where the little ones were in
rags and providing food when the family was
famishing.

Many instances of the wretchedest
kind of misery have been found by the free
doctors in their rounds, and the stories that
have been related in these columns have been
heart-wringing enough to melt the sturdiest
to tears. Those who refused to give when
they read the doctor's revelations must have
been adamant indeed. These cannot have
been many of them, for the army marching
beneath the banners of this charity is a vast
one, and there is scarcely a man, woman or
child in this and the surrounding communi-
ties who has not given a little at least.

Up to date the free doctors have furnished
medicines free to 2,018 sick children, and in
2,718 cases they have been obliged to pay
two or more visits to their little patients.
Food has been given in 530 cases and cloth-
ing in 427.

The sorrows upon which the Fund phy-
sicians stumble and the character of the
cases to which they give their attention is
fairly indicated by the following statement,
which was written by a member of the corps:
